B.A. in Sociology

Program Outcomes (POs):

This course provides the basic ideas and concepts of Sociology. Through this programme, the students will gain sociological imagination, research orientation, and a deeper understanding of society. The programme will make the students more confident and will enable them to pursue their choice, which may include teaching, research, public services, executive work in the corporate, development and voluntary sectors. The Student is expected to imbue following qualities, which will help them in their life to achieve goals:

- Provides students with learning experiences that develop broad knowledge and understanding of key concepts of Sociology and equip them with advanced knowledge and understanding for analyzing and performing the tasks concerning social structures, institutions, and social change;
- Nurture ability among students to apply the acquired knowledge and skills to find solutions to specific theoretical and applied problems in sociological settings;
- Develop abilities in students to come out with innovative prescriptions/solutions for the benefits of society, by diligence, leadership, team work and lifelong learning;
- Provide students with skills that enable them to get employment in public, private and non-government sectors; pursue higher studies or research assignments.

B.A. First Year: Certificate in Sociology

Program Specific outcomes (PSOs):

At the end of the programme, the following outcomes are expected from students:

- Learn about the fundamental aspects of Sociology including basic concepts, theories, and approaches.
- Understand the historical development of Sociology as a discipline and its relevance in the contemporary world.
- Learn about Sociology as a multidisciplinary field of study covering linkages with Anthropology, Political Science, Economics, Psychology, and History.
- Develop analytical and research skills to study social problems, social institutions, and processes of social change.
- May have capabilities to start earning by enhancing their skills in the field of teaching, research, administration, private and non-government sectors, as well as development organizations.

Year	Sem.	Course Code	Paper Title	Credits	Total No. of Lecture
1	I	BSOC-101T	Basic concepts of Sociology	6	90
	I	BSOC-102M	Fundamentals of Sociology (Minor)	6	90
	II	BSOC-111T	Society in India: Structure Organization & Change	6	90

Programme/Class : Certificate		Year : First	Semester : First	
Subject: Sociology				
Course Code: BSOC-101T		Course Title: Basic concepts of Sociology		
Course Objective: This course intends to familiarize students with the basic concepts, perspectives and approaches of Sociology. It also aims to acquaint students with the fundamental elements of social life, social institutions, culture, and social change. Further, the course seeks to enable students to understand contemporary social issues and concerns in the light of sociological thinking, and to develop critical insights into the changing dynamics of society.

Programme/Class : UG Degree (Honours with Research)		Year : FOURTH	Semester: VII	
Subject: Sociology				
Course Code: BSOC-403T		Course Title: Social Change and Development		
Course Objectives: This course aims to provide students with a clear understanding of the meaning, forms, and processes of social change. It explores key concepts of development, including economic growth, human and social development, and sustainability. The course introduces major development theories and thinkers like Hoselitz, Rostow, Frank, Wallerstein, and Amin. It also examines planning approaches, India's five-year plans, the role of NITI Aayog, welfare state ideas, civil society, NGOs, and contemporary social transformation.				
Credits : 4		Course Compulsory		
Max. Marks: 100 (75+25)		Min. Passing Marks :33		
Total No. of Lectures- Practical (in hours per week): L-T-P: 4-0-0				
Unit	Topics		No. of lectures	No. of Credits
I	Meaning and forms of social change; change in and of structure; evolution, progress, development, growth, transformation, diffusion.		15	01
II	Development concepts: economic growth, human development, social development, sustainable development, socio-cultural sustainability, multiple sustainability, governance and development.		15	01
III	Development theories: ideas of B.F. Hoselitz, W.W. Rostow, A.G. Frank, Immanuel Wallerstein, Samir Amin.		15	01
IV	Planning and welfare state: democratic, totalitarian, and regional planning; India's five-year plans; role of NITI Aayog; welfare state; role of civil society and NGOs.		15	01
Course Outcomes: After completing this course, students will be able to explain the meaning and forms of social change, as well as distinguish between structural changes. They will understand various development concepts and sustainability perspectives. Students will gain knowledge of classical and modern development theories. They will critically analyze India's planning process, role of NITI Aayog, welfare state, NGOs, and civil society. Learners will also interpret the trends of modernization, globalization, and other changes shaping contemporary Indian society.

Programme/Class : UG Degree (Honours with Research)		Year : FOURTH	Semester: VII
Subject: Sociology			
Course Code: BSOC-404T		Course Title: Sociology of Knowledge and Education	
Course Objectives: This course aims to introduce students to the sociology of knowledge and education, highlighting their interrelation. It explores how education influences socialization, mobility, and change, while also analyzing inequality, digitalization, and postmodern approaches. Special focus is given to Indian education policies, especially NEP 2020, within a globalized context.			
Credits : 4		Course Compulsory	
Max. Marks: 100 (75+25)		Min. Passing Marks :33	
Total No. of Lectures- Practical (in hours per week): L-T-P: 4-0-0			
Unit	Topics	No. of lectures	No. of Credits
I	Sociology of Knowledge – meaning, nature, social construction; relation between knowledge and education.	15	01
II	Education and society – socialization, stratification, mobility, modernization.	15	01
III	Contemporary issues – postmodernism, digital learning, L.P.G.	15	01
IV	Indian context – NEP 2020, ICT, challenges in education.	15	01
Course Outcomes: On completion, students will understand the social construction of knowledge and evaluate education as a social institution. They will be able to analyze contemporary challenges like privatization, inequality, and digital divide, interpret postmodern perspectives, and critically assess Indian education reforms such as NEP 2020 in relation to globalization and social change.

Programme/Class : PG Degree		Year : FIFTH	Semester: IX
Subject: Sociology			
Course Code: BSOC-501C		Course Title: Classical Sociological Thinkers	
Course Objective: The objective is to study the foundational ideas and contributions of classical sociologists like Comte, Marx, Durkheim, and Weber. Students will understand their theories, concepts, and methodologies, and learn to apply these insights to analyze social structures, institutions, and processes, forming the basis for modern sociological research and thought.			
Credits : 4		Course Compulsory	
Max. Marks: 100 (75+25)		Min. Passing Marks :33	
Total No. of Lectures- Practical (in hours per week): L-T-P: 6-0-0			
Unit	Topics	No. of lectures	No. of Credits
I	Auguste Comte: life, works, positivism, law of three stages, methodology.	15	01
II	Karl Marx: historical materialism, class struggle, alienation, impact on social theory.	15	01
III	Émile Durkheim: social facts, division of labour, suicide, religion, functionalist perspective.	15	01
IV	Max Weber: social action, types of authority, bureaucracy, Protestant ethic, rationalization, comparative methodology.	15	01
Course Outcomes: After completing this course, students will be able to critically analyze classical sociological theories and concepts, understand their relevance to contemporary society, and apply these ideas in research, teaching, and policy analysis. Students gain a strong foundation for comparative and applied sociological studies.
